

HELPING WITH WATER CONSERVATION

# ABSORBER

WATER RETAINERS FOR FORESTRY & TREE CROPS  
LAWNS & GARDENS HORTICULTURE & FLORICULTURE

- **Increases** the Water holding capacity of soils for several years.
- **Improves** the physical properties of soils through aeration.
- **Enhances** plant growth through continuous availability of water and nutrient in the root zone for **optimal absorption** by plants.
- **Degrades naturally** in soils.
- **Reduces** evaporation from the soils.
- **Limits losses** of water and nutrients due to leaching.
- **Irrigation frequency** may be reduced by **50%**
- **Protects** the environment against drought and ground water pollution
